The power of action.™

# Use this form to apply for any of the equipment rebates listed below.

Save money, improve the efficiency of your home and help ensure a cleaner environment with energy efficiency programs from National Grid.

Follow these steps to receive a rebate for the equipment listed below:

- 1) Consult your qualified contractor or plumber.
- 2) Complete this application and determine anticipated rebate.
- 3) Return application with a copy of your dated **invoice** or **receipt**. (Remember, your invoice or receipt must include the complete model number and cost of each unit installed.)

Mail to: **National Grid Efficiency**  
**40 Washington Street, Suite 2000**  
**Westborough, MA 01581**

## 2010 Qualifying Efficient Equipment

Product	Rebate
<b>HIGH-EFFICIENCY HEATING EQUIPMENT</b>	
Forced hot water condensing boilers AFUE* ≥ 90% rating	\$1,000
Forced hot air furnaces AFUE* ≥ 94% rating & ECM† motor	\$600
Steam boilers with electronic ignition ≥ AFUE* 82% rating	\$500
Forced hot water boilers AFUE* ≥ 85% rating	\$500
Forced hot air furnaces AFUE* ≥ 92% rating & ECM† motor	\$400
Forced hot air furnaces AFUE* ≥ 90% rating	\$200
<b>HIGH-EFFICIENCY WATER HEATERS</b>	
Indirect water heater attached to a natural gas ENERGY STAR® forced hot water boiler	\$300

## 2010 Qualifying Efficient Equipment

Product	Rebate
<b>OUTDOOR BOILER RESET CONTROLS</b>	
Add on unit attached to forced hot water boiler	\$100
<b>DUCT SEALING AND DUCT INSULATION†</b>	
Duct sealing/insulation of heating ducts by a BPI certified/accredited contractor†	up to \$600
<b>REPLACEMENT THERMOSTATS</b>	
ENERGY STAR rated and/or 7-day Programmable Thermostats** Maximum 2 per gas account	\$25/ea.

\* AFUE = Annual Fuel Utilization Efficiency

± ECM = Electronic Commutated Motor

\*\* Programmable thermostats must be installed by a contractor at the time of furnace or boiler replacement.

† Duct sealing/insulation must be completed in conjunction with the installation of a new furnace with an AFUE rating of 90% or greater. In addition, blower door and duct blaster testing must be performed by a BPI certified/accredited contractor. The receipt must include pre and post blower door and duct blaster readings, manual J calculation and materials installed. New construction projects are limited to 10 rebates per completed project.

Building Performance Institute (BPI) is a national resource for building science technology that sets standards for assessing and improving energy performance, health and safety of homes. For more information, visit [www.bpi.org](http://www.bpi.org)

# Residential Natural Gas Energy Efficiency Rebate Application

*Please review terms and conditions. Form must be completed in its entirety.*

Customer: \_\_\_\_\_ National Grid Gas Account #: \_\_\_\_\_  
(Name and address where equipment was installed)  
 Street: \_\_\_\_\_ Approximate Age of Home: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_ Phone: \_\_\_\_\_

# National Grid Residential Energy Efficiency Programs

## Terms & Conditions

- Incentives** - Subject to these Terms and Conditions, this program is offered by KeySpan Gas d/b/a National Grid (“the Company” or “National Grid”). The Company, through its contractual vendor, Energy Federation Incorporated (the “Vendor”), will pay incentives to eligible customers in the Company’s Service Territory, for the purchase and installation of the equipment/products described in this literature and within this application.
- Customer Eligibility** - Equipment installed from 6/1/09 to 12/31/10 is eligible. It must have been installed at the installation address listed on this application and the required documentation listed must be postmarked by the customer no later than 1/31/11. Rebate programs are available to existing National Grid gas heating customers and customers that convert from oil to gas heat. Check [www.powerofaction.com/efficiency](http://www.powerofaction.com/efficiency) frequently for program updates or installation extensions.
- Post-Installation Work Verification** - The Company reserves the right to perform a verification of the specified installation. If the Company and/or Vendor determines that the equipment was not installed in a manner that is consistent with program guidelines, the Company and/or Vendor may require that the installation be modified before making any incentive payments. The cost of such modifications is the responsibility of the customer.
- Energy Use Information** - I hereby authorize the Company to release my energy use information to Energy Efficiency Program Sponsors (EEPS) and System Benefit Charge (SBC) program administrators and/or its designee. I understand that such information will be kept confidential and used only for the purpose of determining program eligibility and energy savings.
- Installation Requirements** - All installations must be completed in conformance with state and local code requirements and by qualified contractors.
- Proof of Proper Installation** - As part of its incentive application, the Customer is required to submit dated copies of all paid invoices documenting the installation (including all materials, labor and equipment invoices) which reflect the actual cost of purchasing and installing the equipment. If label is unavailable, manufacturer specification sheet with model number matching invoice may be substituted.
- Indemnification** - Customer shall defend, indemnify and hold harmless the Company and its officers, directors, employees, agents, servants and assigns from and against any and all losses, claims, demands and/or liability for damage to property, injury or death of any person, or any other liability incurred by the Company, including all expenses, legal or otherwise, arising out of or related to the equipment or installation, except to the extent attributable to the negligence of Company. In no event shall Company’s liability to Customer exceed the incentive amounts.
- Limited Scope Review** - The scope of review by the Company and the Vendor and their Inspector of the installation of the equipment is limited solely to determine whether incentives are payable. It does not include any kind of safety or code review and should not be relied upon as one.
- Incentive Amounts** - The Company will provide incentives for new, qualifying heating, water heating, duct/air sealing, thermostat or boiler reset control equipment, up to incentive amount indicated in the program literature and within this application. Incentives cannot exceed the purchase price of the equipment.
- Payment** - The Company, through the vendor, expects to make incentive payments to eligible customers within 45 days of a satisfactory work verification. The customer must refund any incentive made to the extent the contractor or equipment does not satisfy program requirements.
- No Warranties** - The Company and the Vendor do not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy or safety of such equipment.
- Changes in the Program** - Equipment Incentive Program/Tax Liability Conditions and details of the Program are subject to change without prior notice and incentive offers may increase or decrease over time. The Company reserves the right to modify or terminate the Incentive Program without notice. Participants of the program may be subject to tax liability for the value of goods and services received through the program pursuant to state or Federal income tax codes. The Company is not responsible for any tax liability which may be imposed as a result of receipt of the rebate by the Customer.
- Contractor Insurance** - The Company is not responsible for any damage that may be caused by or arise out of an installation of any equipment. The customer is responsible for selecting contractors who are qualified and carry adequate insurance coverage.

National Grid is one of the largest investor-owned energy companies in the world. In the US, we serve nearly 5 million electric and 3.4 million gas customers in Massachusetts, New Hampshire, New York and Rhode Island.
